DATA SHEET

BRCL3230EME / BRCL3230EME
MOSFET
BRCL3230EME SOT23-5
BRCL3230EME

The BRCL3230EME series product is a high integration solution for lithium-ion/polymer battery protection. BRCL3230EME contains advanced power MOSFET, high-accuracy voltage detection circuits and delay circuits.

BRCL3230EME is put into an ultra-small SOT23-5 package makes it an ideal solution in limited space

Equivalent FET on Resistance

/ Overcharge Condition

The BRCL3230EME detects this voltage and releases the overcharge condition. Consequently, in the case that the battery voltage is equal to or lower than the overcharge voltage, the device will detect the overcharge condition and release it.
